

English Laboratory aims at training the students of both UG and PG during odd and even semesters with communication and presentation skills which are considered to be inevitable for seeking employment.

It has two parts, namely

- **Computer Assisted Language Learning (CALL) Lab** accommodates 60 students at a time with 62 systems connected with LAN, backed up by 6KV online UPS. It is provided with free Wi-Fi and net with 270mbps. This laboratory facilitates training to students with user friendly multi software, namely Globarena's Career lab which has four modules - Listening, reading, grammar and vocabulary for the beginners; Young India's Clarity Software which also provides four modules namely - Study skills, Reading skills, Professional Writing and Speaking skills for advanced learners.

Computer Assisted Language Learning Lab (CALL)
