2.	Group Discussion: Topic given is “Importance of Education”	All the students

Some of the Points discussed by the students:

- (i) Education certainly determines the quality of an individual's life.
- (ii) Education improves one's knowledge, skills and develops the personality and attitude.
- (iii) Above all, Education is extremely important for employment.
- (iv) Education teaches the value of discipline to individuals.

2.	Activity conducted is SEMINAR on the topic of “Global Warming – Causes and Solutions.	23765A5601-610

Some of the points discussed by the students during seminar

(i) Global warming can be stopped when combined efforts are put in. For that, individuals and governments, both have to take steps towards achieving it. We must begin with the reduction of greenhouse gas.

(ii) The present generation must take up the responsibility of stopping global warming in order to prevent the suffering of future generations. Therefore, every little step, no matter how small carries a lot of weight and is quite significant in stopping global warming.

1.	JAM: Topic given to the students is “Communication Skills”.	22761A5615-30

Some of the Points Discussed by the students:

- (i) To become a good communicator, it is important to be a good listener. It is important to practice active listening – pay close attention to what others are saying and clarify ambiguities by rephrasing their questions for greater understanding.
- (ii) Convey your message in as few words as possible. Do not use filler words and get straight to the point.
- (iii) It is important to practice good body language, use eye contact, utilize hand gestures, and watch the tone of the voice when communicating with others.
- (iv) Confident in what you say and in your communication interactions with others. Being confident can be as easy as maintaining eye contact, maintaining a relaxed body stance, and talking with concision.

6.	Group Discussion on the topic “Indian Space Research Organisation (ISRO) is developing the capability to launch humans on quick space tourism flights”.	All Students

Key Points addressed by the students:

The world will see a boom in space tourism in the upcoming future.

Space tourism has the potential to bring huge amounts of investment to India.

It is important for India to not be left behind in this industry and try to gain an edge by developing an affordable yet reliable space travel alternative and attracting tourists from all around the world.

But we also need to make sure that the space tourism industry stands for the safety.

To do so, we must create laws and legislation to govern issues concerning space tourism
