INTRODUCTION TO PRAKRUTHI CLUB

“Prakruthi- The Environmental Club of LBRCE” has taken its birth on 18th June of 2018 with its goal to increase and promote awareness of environmental issues such as protection, conservation, preservation, restoration and help students and staff to adopt and adapt the idea and philosophy of sustainable development into their daily lives at college and out of it with an emphasis on educating and empowering them. Prakruthi is a voluntary group comprising of the students primarily with an aim to create awareness within the college and a larger community. We are committed for the improvement of the environment through activities such as planting trees, teaching effective methods of replacing daily used products with eco-friendly counter parts, teaching recycling. The club also discusses and addresses the issues regarding environmental education and sustainable programmes off campus.

Students who are interested in environmental advocacy and awareness are encouraged to join. All the programmes which are planned on behalf of the club are in alignment with Lakireddy Bali Reddy College of Engineering’s vision, mission and values.

Vision

Increase the awareness and environmentally appropriate behaviour among the students and faculty of the campus to maintain clean, healthy and well protected environment for building a sustainable society.

Mission

- To raise awareness among students so that they understand environmental issues.
- To install a sense of responsibility for the environment and a personal commitment to protect and preserve the environment.
- To educate and cultivate an appreciation and interest in the environment.

- To help the community in assessing environmental issues and monitor progress and consistently evaluate the work of the club and align to the clubs objectives.
- To provide the opportunity for students to be actively involved in working towards resolving environmental problems.

**ACTIVITIES DONE BY PRKRUTHI CLUB SPONSORED BY AICTE SPICES
FOR 2022-23**

**AN ECOFRIENDLY CLAY IDOL CAMPAIGN TO SAVE WATER RESOURCES ON THE
OCCASION OF VINAYAKA CHATHURTHI -2022**

- Event Type** : Prakruthi Club distributed Clay idols of Vinayaka on the occasion of Vinayaka Chaturthi 2022 and promoted the awareness on the water pollution due to synthetic chemicals due to Plaster of Paris (PoP) idols.
- Date / Duration** : 30th August, 2022
- Places of Distribution** : Mylavaram and College campus
- Total no of Participants** : 25 Prakruthi club student volunteers
- Objective of the event** : “Promote the awareness on use of clay idols ”
- Outcome of event** : The Clay idols of Vinayaka along with a pamphlet with message and an ecofriendly bag was distributed to the local people of Mylavaram that helped in inculcating a responsibility towards prevention of pollution to water resources due to synthetic chemicals used in POP idols which are generally used.

Annually due to immersion of Plaster of Paris idols of Lord Vinayaka, lot of water resources are being polluted. To address this problem, Prakruthi club student volunteers distributed clay idols of Lord Vinayaka along with a pamphlet with message and an ecofriendly bag was distributed among the local people at Mylavaram and also in the campus. This helped in promoting usage of clay idols and student volunteers also spread a message to the local people about the water and soil pollution that is caused due to the usage of synthetic colors and chemical in the POP idols that are usually used.

DRAWING WITH SLOGAN WRITING COMPETITION ON WORLD OZONE DAY – 2022

- Event Type** : Extra-curricular Competition for Community Outreach.
- Date / Duration** : 12th September, 2022
- Event Name** : Drawing with Slogan Writing
- Total no of Participants** : 120 students from different schools of Mylavaram & Velvadam
- Objective of the event** : Environmental awareness and sensitization among children
- Outcome of event** : Impressive drawings highlighting Ozone layer with impactful slogans contributed by children of peripheral schools. Good exposure for students to present scientific ideas at an early age.

Description / Report on Event: This event was conceived with an aim to spread awareness about fast depletion of Ozone layer and its' possible catastrophic consequences for the human race. Further, with the weakening of Ozone layer, humans have become more susceptible to skin cancers, eye cataracts, impaired immune system and food shortages due to lower crop yield & stunting etc. The year 2022 marks the 35th year of the implementation of the Montreal Protocol, a treaty signed by most of the countries for ban on Ozone depleting substances. And this year's theme i.e., **“Montreal Protocol@35 : Global cooperation for protecting life on Earth”** was the main theme for the **“drawing with slogan writing competition”**. While exhibiting their posters, the participating groups of school children made their presentations at the designated Hall on the 2nd floor of the Administrative Building. The Top performers were adjudicated by a panel of judges comprising Dr. K. Pichireddy and Dr. Rama Krishna. While attending the valedictory program, the Principal, Dr.K.Appa Rao presented prizes to the winners. The team of volunteers, namely K. Venkatesh, A. Harshitha, Syam Paul and so on coordinated the event under the supervision of Dr. Shahed Niloufer & Dr. Bhagya Lakshmi.

A PLANTATION PROGRAM BY PRAKRUTHI CLUB

Event Type : PLANTATION PROGRAM

Date / Duration : 21st October, 2022

Total no of Participants: 50

Objective of the event : To plant trees within the campus and in the nearby village of Kalimallathanda; and spread public awareness on the significance of Plantation and Conservation among local population as well as students for a greener future.

Outcome of event : 500 saplings planted; Good student participation and enthusiastic response from local population alike .

Description / Report on Event: The student volunteers of Prakruthi – The Environmental Club of LBRCE started a plantation program on 21st October, 2022 in the campus and at the nearby village of Kalimallathanda. This program aimed to plant about 500 saplings within the campus and at the nearby village. The club coordinators, Dr. Shaheda Niloufer and Dr. V. Bhagya Lakshmi guided the student volunteers on how to plant the saplings and fulfill the further responsibility to water the plants regularly and help them survive.

Dr. KVSG. Murali Krishna, Director of Academic planning from JNTUK Kakinada participated in the plantation drive by planting a sampling. Principal, Dr. Appa Rao, HoDs and Deans of the institute also participated in planting the 100 saplings of “Tulasi” within the campus for its medicinal importance. Student volunteers also participated in the tree plantation program and made a boundary of 100 plants along the roadside in the village for fighting pollution. The main purpose of this event was to enhance awareness about the importance of tree plantations.

A SEMINAR ON “ENVIRONMENTAL PROTECTION

- Event Type** : Seminar
- .Date / Duration** : 22nd October, 2022
- Speaker** : Dr. K.V.S.G. Murali Krishna, Director, Academic Planning, JNTUK, Kakinada, A.P., India
- Total no of Participants** : 500
- Objective of the event** : To create awareness on ‘Environment and environmental conservation methods among the first-year students

Outcome of event : Huge number of students participated and got motivated by the speech of Dr. K.V.S.G. Murali Krishna the expert environmentalist from JNTUK, Kakinada.

Description / Report on Event: Prakruthi – The Environmental Club of LBRCE organized a Seminar on “Environmental Protection”. Dr. K.V.S.G. Murali Krishna, Director, Academic Planning from JNTUK, Kakinada was the resource person of the Seminar. The guest speaker addressed the first- year students and created awareness about the environmental issues and the strategies to be followed in regular life. Students were highly motivated and inspired by the talk by Dr. K.V.S.G. Murali Krishna, with a good level of interaction with the expert. He also participated in the plantation program that was initiated by the Prakruthi club in the campus by planting a sapling after the seminar.

Seminar on “Environmental Protection” by Dr. K.V.S.G. Murali Krishna, Director, Academic Planning, JNTUK, Kakinada, A.P., India on 22nd October, 2022

PRAKRUTHI CLUB CONDUCTED AN ESSAY WRITING COMPETITIONS FOR STUDENTS OF APR MINORITY GIRLS HIGH SCHOOL

Event Type : Prakruthi Club Conducted an Awareness program and Essay Writing Competitions For Students of APR Minority Girls High School

Date / Duration : 16th November, 2022

Total no of Participants : 100

Objective of the event : To create awareness on “Sanitation and Personal Hygiene

Outcome of event : Students were motivated by the awareness program that was conducted before the competition to participate in the competition and implement personal care in their daily routine.

Description / Report on Event: The Prakruthi – The Environmental Club of LBRCE conducted an awareness program on “Sanitation & Personal Hygiene” on 16th December, 2021 to the students of APR Minority Girls High School followed by Essay writing competition on the same topic. Students actively involved the competition and won top three prizes. The prize distribution was done on 23rd November, 2022. The mathematics table books were also distributed to all the participants with certificates. The plant saplings were also distributed to the students and in the surroundings of the school as a part of Plantation program.

POSTER PRESENTATION COMPETITION ON WORLD SOIL DAY - 2022

- Event Type** : Poster presentation competition on “Soil Conservation” on the occasion of World Soil Day-2022 Purchased Lab Equipment
- Date / Duration** : 5th December, 2022
- Total no of Participants** : 88 students from all the departments of LBRCE
- Objective of the event** : Inculcating the importance of Soil among the students
- Outcome of event** : Students participated with interesting posters on soil conservation and explained the aspects like formation of soil, erosion and degradation of soil etc in the competition. Good exposure for students to present scientific ideas at an early age.

Description / Report on Event: This event was conceived with an aim to spread awareness about importance of soil and catastrophic consequences caused due to erosion and degradation of soil by the humans. Healthy soils are essential for healthy plant growth, human nutrition, and water filtration. Healthy soil supports a landscape that is more resilient to the impacts of drought, flood, or fire. Soil helps to regulate the Earth's climate and stores more carbon than all of the world's forests combined. And this year for the “World Soil Day 2022”, Prakruthi club organize a poster presentation competition for the students with the theme of soil conservation for future generations. While exhibiting their posters, the participants explained the importance of soil and the various human activities that are

causing damage to our natural soils. The Top performers were adjudicated by a panel of judges comprising Dr. V. Parvathi and Dr. Shaheda Niloufer & Dr. V. Bhagya Lakshmi. While attending the valedictory program, the Principal, Dr.K.Appa Rao presented prizes to the winners.

The team of volunteers, namely K. Venkatesh, A. Harshitha, Syam Paul and so on coordinated the event under the supervision of Dr. Shahed Niloufer & Dr. Bhagya Lakshmi.

The lab equipment was purchased for Civil Engineering Department for Environmental engineering lab by Prakruthi club using AICTE SPICES grant. This equipment would be helpful for conducting mini projects, demonstrations and student projects. And this may also extend to publish papers in journals and conferences.

PLANT PARADISE – EXHIBITION OF DIVERSE PLANT SPECIES BY PRAKRUTHI CLUB ON LAKSHY – 2K22

Event Type : A Herbal Stall was organized by Prakruthi Club on the occasion of Lakshya 2K22

Date / Duration : 28th December, 2022

Total no of Participants: 50 Prakruthi club student coordinators (Open to all for display)

Objective of the event : Inculcating the importance of diversity of plant species in the campus and increasing the aesthetics.

Outcome of event : Students participated with interest in the plant exhibition and learned the importance of diversity of plants and explained the same to the visitors.

Description / Report on Event: This event was organized to impart the interest among the students on the importance of various medicinal and ornamental plants. This event also promoted the significance of indoor plants in the apartment culture and encouraged the visitors of the stall to

understand its significance. While exhibiting the plants the college staff and students also took oath to improve the greenery around them. The college principal Dr. K. Appa Rao and the Lakshya coordinators and HoD's visited the stall and encouraged the students. The team of volunteers, namely K. Venkatesh, A. Harshitha, Syam Paul and so on coordinated the event under the supervision of Dr. Shahed Niloufer & Dr. Bhagya Lakshmi.

10. WHAT WAS THE NATURE OF THE EXPERIENCES THAT YOU HAD GAINED THROUGH THE OUTDOOR ACTIVITIES CONDUCTED UNDER THE AMBIT OF THE AICTE SPICES SCHEME??
The experience gained from nature can be enriched and fulfilling. Being in nature can help us feel more connected to the world around us and appreciate the beauty of the natural world.
11. KINDLY PROPOSE ANY ADDITIONAL SUGGESTIONS THAT COULD BE IMPLEMENTED IN THE UPCOMING EVENTS.
There are many fun and engaging activities that can be implemented in upcoming events on nature like a nature photography contest.

FEEDBACK REPORT: Most of the students who participated in the events expressed their interest in engaging more outdoor activities like plantation drives which is the need of the hour, awareness programs, clean and green activities and so on. They also expressed that interaction with the people during outdoor activities helped them to understand the social issues.

ACKNOWLEDGEMENT

I would like to sincerely thank AICTE for the SPICES scheme that had encouraged our Prakruthi club to conduct more eco friendly events in and outside the campus. I would also like to thank our college management for extending all the support for the events conducted under this scheme. I would also like to take this opportunity to thank all the student coordinators and supporting staff those who have extended their interest in participating in the events and making our journey towards a sustainable society an easy and possible task. These kinds of schemes would definitely help the students and society to develop creativity and ethics and achieve best solutions for the existing social issues.
