| Event Type                | : | Elocution                                                                                                                                                                                                                          |
| Date / Duration           | : | 28.02.2025                                                                                                                                                                                                                         |
| Name of Coordinator(s):   |   | Dr.G.L.N.Murthy                                                                                                                                                                                                                    |
| Name(s) of the Judges:    |   | Dr.P.Rakesh Kumar<br>Dr.V.Ravi Sekhara Reddy                                                                                                                                                                                       |
| Target Audience           | : | Students                                                                                                                                                                                                                           |
| Total no of Participants: |   | 7 Nos.                                                                                                                                                                                                                             |
| Objective of the event:   |   | To help students improve their confidence and communication abilities while expressing their thoughts on science-related topics.                                                                                                   |
| Outcome of event          | : | Getting a deeper understanding of scientific concepts, discoveries, and their relevance in everyday life. Further, the students can develop confidence and clarity which are essential for effective communication and leadership. |

### **Description / Report on Event:**

Science and technology have been the backbone of India's progress, transforming the nation into a global leader in innovation, space exploration, healthcare, and sustainable development. From ancient scientific achievements to modern technological breakthroughs, India's journey in science has played a crucial role in shaping its economic and social landscape. National Science Day is celebrated in India on February 28th every year to commemorate the discovery of the Raman Effect by Dr. C.V. Raman in 1928. This discovery earned him the Nobel Prize in Physics in 1930, making him the first Indian scientist to receive this prestigious award.

To commemorate the birth day of Dr.C.V.Raman, Elocution competition has been conducted. The event began by informing the participants about

the significance of science in national development by Dr.G.L.N.Murthy, Faculty Coordinator, IEEE, Department of ECE. The students were told to follow the footsteps of ancient scientists who have done miracles even during those days when there is no sophisticated equipment.

This was followed by presentations from the participants who shared their views on the theme. Dr.P.Rakesh Kumar and Dr.V.Ravi Sekhara Reddy have evaluated the presentations. Ms. O.Meenakshi and V.Geetha Narayanamma have been selected as the winners. .
