**Consolidated Feedback report collected from Stakeholders during
academic year 2020-21**

Students

- Provide training on skill development courses.
- Advanced Courses like Electric Vehicles may be included in curriculum.
- More workshops on latest technologies are required.

Faculty

- Courses like e-mobility can be added in curriculum to give exposure to new technologies.
- Courses on current technologies may be introduced as electives.
- Value added courses are to be conducted more in number to meet PSOs.
- Some simulation experiments may be included in Electrical Circuits lab.

Industry

- Industry expert talks are to be arranged to bridge the gap between academics and industry.
- Need to improve coding as a skill. Give them more time and tools to practice.
- Better all-round development of the Interpersonal and communication skills

Alumni

- More internship facilities are to be made available to get industry exposure.
- More involvement of students in designing innovative projects, planning and executing research work

Parent

- Seminars and debates can be enhanced to increase the presentation skills of the students.
- Better mentoring for students regarding their career and higher studies.

Action taken report

- Courses suggested by stakeholders are considered in R20 regulation curriculum.
- Skill development courses are made mandatory in R-20 regulations.

- Certification program on PLC & SCADA was conducted in academic year 2020-21.
- Students are encouraged to participate in seminars and debates by participating in department association activities.
- Collected different views on the development of Curriculum /syllabus of EEE department and forwarded to Department Academic Committee and Department Advisory Board to include in next regulation
