A Report on ‘AWS Training’

Event: AWS Training for Pre-final year students

Date(s): 12th Jun -16th Jun, 2022

Resource person(s): AWS Academy, Hyderabad

Target Audience: IV B.Tech students (AI &DS, CSE, CSML, ECE, EEE, IT)

Total no of Participants180

Objectives of the Event:

1. To provide in-depth training on AWS cloud fundamentals with special focus on certification preparation, live debugging and optimized solutioning.
2. To prepare students to create real world applications appearing in challenging placement assessments.

Detailed Report on Event:

The Technical Training Program commenced with pre-training practice & assessments for selection of the cohort. The initial sessions focused on building the foundational aspects related to Cloud fundamentals using AWS. The focus was on helping students to master the core concepts in cloud and data base management for real world solutions. The training involved classroom training, practice sessions and regular assessments for enhanced learning.

With 180 participants, the training sessions were interactive, hands-on and participative.

Outcome: The students developed clear understanding of key AWS and cloud concepts. and learnt smarter approaches at analysing real time problem statements and creating optimized, lean and scalable solutions.

Feedback & Suggestions: Participants expressed satisfaction with the quality and relevance of the training and showed readiness to attend more such training programs for better placement preparation.
