A Report on 'Advanced DSA Training'

Event: Assessment for Advanced DSA Training

Date(s): 10th & 11th March Assessment

Frequency: 2 Days

Resource person(s): Trainers from Smart Interviews, Hyderabad

Target Audience: IV B. Tech Students (2026 Batch) (AI & DS/CSE/CSML/ECE/EEE/IT)

Total no of Participants: 344

Objectives of the Event:

- To provide challenging problem statements on DSA for identifying the analytical, logic building and problem solving, live debugging and optimized solutioning among students
- To prepare a cohort of students who have decent understanding of coding for advanced training.

Detailed Report on Event:

The advanced DSA Training Program commenced with pre-training practice & assessments for selection of the cohort. The initial sessions focused on building the foundational aspects related to Programming and Data Structures. The focus was on helping students to deal with challenging problem statements on DSA for identifying the analytical, logic building and problem solving, live debugging and optimized solutioning among students. It also sought to prepare a cohort of students who have decent understanding of coding for advanced training.

With 344 participants, the training assessments were conducted in the physical mode, proctored by faculty.

Outcome: The students understood the real time problem statement analysis and how to submit optimized, lean and scalable solutions while dealing with maximum hidden test case

Feedback & Suggestions: Participants expressed satisfaction with the quality and relevance of the assessment and showed readiness to attend more such training programs for better placement preparation.
