

### LAKIREDDY BALIREDDY COLLEGE OF ENGINEERING (AUTONOMOUS) CORPORATE RELATIONS & PLACEMENTS

### **REPORT 2021-22**

### Introduction

This report outlines the strategic enhancements implemented in our training and skill development programs based on feedback from HR professionals and various advisory sources. Our commitment to refining these programs has significantly contributed to the placement success for the academic year, resulting in 1169 placements.

### 1. Revised Training Strategies

In response to the insights gathered, we have updated our training strategies to better align with industry expectations and demands. This initiative focuses on both technical and internal training to equip students with the necessary skills to thrive in their professional endeavors.

### 2. Technical Training

To enhance the technical capabilities of our students, we have partnered with Bytexl and E Box companies. These collaborations provide specialized training that addresses the current technological trends and requirements of the job market. The hands-on experience and practical knowledge gained from these sessions have been invaluable.

### 3. Internal Training Programs

Our internal training initiatives have been diversified and tailored to meet various competencies. Key programs include:

- Wipro Talent Next: This program focuses on developing core skills and competencies that are highly valued in the industry.
- Salesforce Training: This training equips students with essential knowledge and skills in cloud-based solutions, preparing them for careers in technology and sales.

In addition to these, the Training and Placement (TP) Cell conducts regular sessions on aptitude, soft skills, and verbal communication. These foundational skills are crucial for student success in interviews and professional settings.

Furthermore, we have collaborated with APEX Company to organize more company-specific training programs. These programs ensure that students are well-prepared for the specific expectations and cultures of potential employers.

### 4. Mock Interviews

To further enhance our students' readiness for the job market, the TP Cell organizes mock interviews for all fourth-year students. These sessions simulate real interview environments, allowing students to practice their responses and receive constructive feedback. This hands-

on experience is instrumental in building confidence and improving performance in actual interviews.

### 5. Digital Interviews

In addition to traditional mock interviews, we have implemented digital interviews, facilitated by our alumni currently employed in various multinational corporations (MNCs). This initiative not only provides students with exposure to real-world interview scenarios but also helps them understand the nuances of digital communication in professional settings.

### Conclusion and Acknowledgments

The comprehensive training strategies and initiatives we have put in place have yielded excellent results, evidenced by the 1,169 placements achieved this academic year 2021-22. (During the academic year 2020-21 placements 869). This success would not have been possible without the unwavering support from our management, principal, and faculty members. Their guidance and encouragement have been pivotal in our efforts to enhance our students' employability.

We remain committed to continuously improving our programs to ensure our students are well-equipped to meet the challenges of the professional world.

### **Proposals:**

We achieved an impressive total of 1169 placements. Looking ahead, we are committed to exceeding this number in the upcoming year.

Our focus will be not only on increasing the number of placements but also on securing higher salary packages for our students. We will implement targeted strategies and strengthen our industry partnerships to achieve these goals.

We will also arrange additional skilling programmes to reach highest package placements for the coming years and also arrange Guest Lectures, Industrial visits etc.,

Thank you for your continued support as we strive to enhance the placement opportunities for our students.
